

FM Tactical Gears offers the Bullet Proof Conceal Vest, a lightweight and low-profile ballistic solution designed for covert protection without compromising comfort or mobility. Ideal for executive security, law enforcement, and personal defense, this vest is engineered to be worn discreetly under clothing, ensuring protection while maintaining a professional appearance.

Crafted using advanced ballistic fabrics, the Conceal Vest is certified to NIJ Level IIIA standards, providing reliable defense against common handgun threats such as 9mm and .44 Magnum rounds. Its breathable, ergonomic design ensures day-long wearability, making it the perfect choice for both high-security professionals and civilians who require low-visibility armor.

Key Features:

Protection Level: NIJ Level IIIA

Design: Slim, lightweight & body-conforming for concealed wear

Threat Protection: 9mm, .357 Magnum, .44 Magnum, and other handgun rounds

Material: High-performance ballistic fabric with moisture-wicking lining

Weight: Ultra-light for extended wear comfort

Adjustability: Elastic side panels for a secure and discreet fit

Comfort: Breathable mesh and padded inner lining

Color: Typically available in neutral tones (Black/White/Nude) to remain invisible under clothing

Use Cases: Executive protection, undercover operations, diplomatic security, personal defense

Whether you're on assignment, traveling through sensitive zones, or simply prioritizing personal safety, the Bullet Proof Conceal Vest delivers discreet and dependable protection you can trust.
