

FM Tactical Gears proudly offers premium-grade Level 3+ Bullet Proof Plates, engineered to deliver superior ballistic protection and field durability. Manufactured using German composite steel, each plate is built with an anti-spalling coating and integrated chest foaming for enhanced wearer safety and comfort during tactical operations.

These plates are certified to Level 3+ standards, offering dependable protection against a wide range of ballistic threats including 7.62×39mm, 7.62×51mm, 5.56×45mm green tip, and .223 caliber non-AP bullets. Tested to withstand more than 7 direct hits, they ensure maximum protection without compromising mobility.

Ideal for military personnel, law enforcement units, and private security operators, FM Tactical Gears' plates combine durability, protection, and ergonomics to meet the demands of high-threat environments.
